

We've Missed You!

Welcome Back! Here's what to expect...

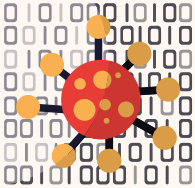

Bring your face masks. They must be worn by all adults in the office and kids ages 3-12 if possible.

Please be on-time to your appointment...but not too early. Your therapist will meet you at the door.

Thanks for waiting outside or in your car instead of our waiting room. Only one adult caregiver per patient inside please.

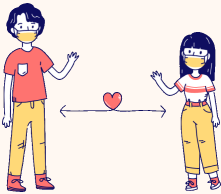

We will ask you some health questions when you arrive.

...and take your temperature too.

Please wash your hands or use hand sanitizer when you enter the office.

Remember to keep a distance of at least 6 feet from others who aren't in your family.

Thank you for respecting your appointment end-time so we are able to thoroughly disinfect our treatment area before the next session.

If you or anyone in your household has been sick in the last 14 days, contact us to reschedule to a virtual telehealth visit.
